

USRAW2  
Workshop

Saturday, 1 June  
14:00 - 17:00

## Ultrasound guided regional anaesthesia workshop (2) – blocks of the lower limb

Harp Hall

**\*\*IMPORTANT NOTICE:** access is limited to pre-registered delegates

### Learning objectives

These half-day hands-on ultrasound workshops will focus on the basic skills in ultrasound techniques relevant to anaesthesiologists. Each workshop includes a short anatomical lecture followed by expert-led practice on living models and phantoms.

After the session, participants will have acquired the basic skills in ultrasound-guided regional anaesthesia of the upper and/or lower limb and/or the trunk.

The workshops will be run by the best available experts in ultrasound-guided regional anaesthesia from Austria, host country of Euroanaesthesia 2019.

*Target audience: Residents, fellows, physicians interested in regional anaesthesia and chronic pain medicine.*

### Chair:

Gerhard Fritsch (Vienna, Austria)

### Anatomical lecture

Georg Feigl (Graz, Austria)

### Station 1: Fascia iliaca compartment block

Franz Josef Nierscher (Vienna, Austria)

### Station 2: Saphenous nerve block

Monika Lutz (Vienna, Austria)

### Station 3: Popliteal sciatic nerve block

Gerhard Fritsch (Vienna, Austria)

### Station 4: Femoral nerve block

Manfred Greher (Vienna, Austria)

### Station 5: Truncal nerve blocks below the knee

Lukas Kirchmair\* (Schwaz, Austria)

### Station 6: Proximal sciatic nerve block

Jürgen Nawratil (Salzburg, Austria)
