

VIDEO (LARYNGOSCOPY) KILLED THE RADIO STAR

Expert insights into
the evolution of laryngoscopy

Speakers:

Dr. Tomasz Gaszynski (*Medical University – Lodz, Poland*)

Dr. Alistair McNarry (*Western General Hospital – Edinburgh, Scotland*)

Dr. Ruediger Noppens (*Western University Ontario – London, Canada*)

Prof. Patrick Schoettker (*University Hospital – Lausanne, Switzerland*)

Lunch boxes will be provided to the participants attending the symposium.

PATIENT SAFETY
IN OUR HANDS

Saturday, June 1st

12:15 – 13:45, Piano Room

Join your colleagues during the Medtronic Symposium for expert insights on Video Laryngoscopy. This interactive panel will debate the latest opinions on VL & help you enable the adoption of new technology for safer airway management.

Topics will include:

- Evidence:
“What is the case for VL today?”
- Clinical Practice (Hands-on Training & Virtual Education):
“Success & limitations of video laryngoscopy”
- Implementation:
“Is VL a wise investment?”

Please note that we will make use of interactive voting during the sympo. Make sure to download the **Sli.do** app in advance of the session. The password for the meeting is **Videolaryngoscopy**.
